

Mount Vernon District Supervisor Campaign Platform

Part 1: It's too expensive to live in Fairfax County

- **Make affordability the priority.** Reduce avoidable housing, tax, utility, and transportation costs while protecting essential services.
- **Build homes with everyday services.** Require usable ground-floor retail in new apartment developments along Richmond Highway and designated redevelopment centers, including groceries, convenience stores, and restaurants. Expand affordable housing and address displacement.
- **Make sewer billing fair.** Improve existing protections for water used outdoors that never enters the sanitary sewer, and simplify appeals for inaccurate usage baselines and leaks.
- **Pursue workforce housing.** Review Fort Belvoir housing as 200 new officer homes are built; verify reported vacancies and seek a small pilot offering discounted homes to county and school employees, while protecting military families.
- **Create a shopping and entertainment destination.** Explore a Mosaic-style district on suitable land at or near Davison Army Airfield if federal review establishes availability without compromising military operations.
- **Reduce reliance on property taxes.** Seek commercial investment, grants, and other revenues. Set measurable property-tax relief targets for meals-tax revenue and report effects on actual household bills.
- **Pursue responsible casino revenue.** Work toward a regulated casino and entertainment proposal with state authorization, voter approval, a positive net return, public-safety safeguards, and a defined contribution to property-tax relief.
- **Spend tax dollars responsibly.** Compare costs, scrutinize expensive designs, and publish major contract changes. Apply the same value-for-money standards to trails, roads, and other capital projects.
-

Part 2: Our government needs to be more responsive

- **Serve as your full-time supervisor.** Hold no other job; limit discretionary committee commitments; offer personal evening, weekend, telephone, and neighborhood office hours, with prompt follow-through.
- **Keep housing representation active.** Review appointments within 60 days, promptly nominate qualified representatives, and publicly track vacancies and participation.
- **Deliver overdue projects.** Advance the Penn Daw Fire Station and Kennedy Shelter replacement. Publish project origins, budgets, deadlines, delays, and recovery plans; conduct quarterly progress reviews.
- **Move Richmond Highway forward.** Coordinate widening, utilities, sidewalks, crossings, and bus rapid transit through one accountable delivery plan, opening completed improvements in stages where feasible.
- **Improve southern district roads.** Prioritize justified widening, safer intersections, turn lanes, sidewalks, and signal improvements in Lorton and surrounding communities.
- **Pursue Metro access to Fort Belvoir.** Work with federal, state, Army, and transit partners on a viable plan while improving connections to existing Metro stations.
- **Make school budgets transparent.** Work with the School Board to publish school-by-school allocations, spending, staffing, and service costs in an accessible, comparable format.
- **Support Mount Vernon High English learners.** Advocate for additional qualified staff, tutoring, summer learning, interpretation, and family support, with measurable academic and graduation outcomes.
- **Build partnerships that deliver.** Work with Congressman Beyer, Senator Surovell, Delegate Krizek, the Board Chair, and fellow supervisors on shared priorities and regular public progress reports.
